Prophetic Insights 2010

Rev. Judith Harrington has received prophetic insights every year for over three and a half decades. God's Spirit has quickened some insights to her again this year. Read them prayerfully, and carefully anchor anything the Spirit of God bears witness to you in your heart.

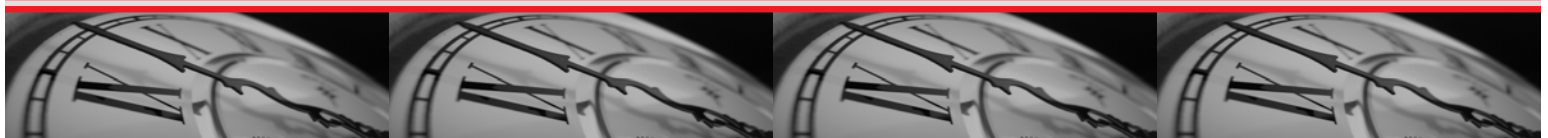

Proverbs 22:3 NLT *"A prudent person foresees danger and takes precautions. The simpleton goes blindly on and suffers the consequences."*

1. This is a defining year! God's Spirit is increasing spiritual activities and effectiveness to face the demands of the day. Ministers and individuals alike will need to reevaluate, streamline, and bring into order anything that the Holy Spirit highlights. Ministries that will make necessary adjustments in their operations and programs will increase their productivity. Be willing to give the ministry of the Holy Spirit all liberty to modify former objectives and inspire new direction. The goal is to free us from unnecessary battles and struggles. Be prudent! Take His precautions to heart.

2. Acute hearing is a must! God is speaking strongly to His Church as we enter into the difficult days ahead. As the church begins to hear more clearly, we will be able to act more decisively, gain increasing momentum, and advance His Kingdom through effective spiritual discernment. Prepare for fresh insights into His Word.

3. This year we will see the true spiritual identity of people revealed! Those who are truly devoted and obedient to the Lord will come to the forefront leaving little doubt and no confusion about who they really are and Who they serve. Their lives will be stable, showing they are not shaken in mind or in spirit, and they are totally ready to continue fulfilling the vision of their local house.

4. Great victories are in store! Obedience to God's Word always frustrates the devil's plans. The devil really doesn't have one attack that is able to withstand obedience. God is dealing with believers to embrace freedom from disappointments, discouragement, and dissatisfaction so they finally gain their victories once and for all. An army cannot be entangled with or held down by emotional baggage. Simple obedience to God's Word will produce incredible spiritual victories.

5. Apostles and Prophets will increase in their declarations and decrees as they deliver words filled with the breath of heaven! Their inspired words will impact regions, deliver revelation, deposit strength, reveal directives, and issue warnings. The gift of accurate prophecy will be fueled by a great wind of purpose. This is truly an energizing dimension being opened to God's people. Receive your Apostles and Prophets for the gifts they have, and not just simply as "preachers" or "good men." Take their words to heart and don't judge them according to what you like or want to hear. Do this and you will reap the benefits of their apostolic and prophetic words into your life.

6. Break free from too much media! Many in the Church are living in a 'stupor' being oversaturated by news reporting, Hollywood gossip, talk shows, and the addiction to instant information. The oversaturation is causing many to 'veg out' mentally, and that opens a doorway to the spirit of fear. This is the day the Church must arise to be fearless, but far too many believers are just sitting. Spend time away from the 'box' and save your soul.

7. God's rulership is a must! God is gathering and training an army, not just putting a group of people together. A military focus will help us to comprehend the necessity for further training and living under His authority. Dig deep and let spiritual stamina come to the surface. The devil knows his time is short. Submit to the

Lord fully and then you will be able to resist the devil and win every time you face a battle. We must be LED by the Spirit and this only happens when we are under submission.

8. We will witness a strong season of accelerated spiritual development! God is giving serious believers the ability to mature at a rapid pace. Areas of character, integrity, and the fruit of the Spirit that used to take years to develop in new converts will be accomplished in very short periods of time. Having this insight, local houses must continue to focus on discipleship as a major thrust of their ministries.

9. We must be evangelistically minded! This is the hour of the greatest movement to bring in souls to Christ since the first century. The church must march into the harvest fields and reap the souls of Men. If we do not, it will cause many to miss the great blessings God has reserved for His faithful. "Loving our neighbors as ourselves" means wanting Jesus and His Kingdom in full manifestation upon them, and working tirelessly for it.

10. Sow your way to blessings! God's people must continue to maintain a high level of sowing to break through the barriers of this world's economic hardships. Sow in difficult times and reap in difficult times. Watch the words you speak concerning your present financial situation. Water your seeds with proper confessions. Expect harvest results each time you plant!
