Prophetic Insights 2011

Rev. Judith Harrington has for a very long time received insights for each New Year. Prayerfully read these and consider them as you prepare for the year 2011.

Psalm 27:13 "I would have lost heart, unless I had believed that I would see the goodness of God in the land of the living."

1. There is always a demand placed upon the believer to reach beyond their present placement in Christ for spiritual growth and maturity. Pay the price. Make necessary time for praying and worshiping, studying the Word of God, going to the altar, being willing to sacrifice for an eternal gain, and running after God with all you have. Stay strong in the Lord!
2. Earmark of this year will be speed or acceleration. The hastening of events and actions globally will come at a rapid pace. Many of them will come seemingly without warning to those who do not know their Bible. Stay focused!
3. The true Church will shift their main focus from 'service' mindedness to a 'Kingdom' mindset. It will entirely change their vision, adjust their activities, and cause them to embrace a deeper cause. Believers will rise up to be true laborers in the Harvest. Stay open!
4. The world is about to witness the change of thinking where Christianity is concerned. God is changing the face of Christianity and it is being altered to truly reflect Christ. When the Church comes to its glorious expression of true Christ-likeness, the world will see the glory of the Lord and not hear hollow, shallow, or empty words. This will make a tremendous difference in the necessary pace needed for the advancement of the Kingdom of God today. Stay open to change!
5. Beware of the amazing amount of false or strange theologies and twisted views of the Bible we will be exposed to this year. God's Word is not to be altered in any way. The demand of countless carnal 'church-goers' will cause many preachers/teachers to shift their commitment in presenting the Truth accurately. Many believers will be caught up in the trappings of 'appearance' of the preachers/teachers as the means of judgment for their teachings. Stay discerning and test every spirit!
6. Do not lose heart or become spiritually weak through this year as events unfold and the demand for change is placed upon us and our country. God is still in control and the end results are in His hand. God has promised to take excellent care of you. Stay in faith!

7. Many will be tempted to resist Present Truth that will present itself through credible ministers. Minds saturated with religious traditions, 'churchie' mind-sets, and just plain lack of the study of God's Word will want to reject the Truth before the season for understanding presents itself. Exciting truths are opening to a fuller understanding this year. Stay teachable!
8. Assignments are being redefined. Many will experience transition this year that will allow them to be in full position for advancement. Often trials, the fire of adversity, and testings will become the launching pads for coming into placement. Relationship may have to adjust as well. Stay willing to change!
9. The Spirit of God will continue to demand relationship with Christ to enter into deeper waters. Much is yet to be understood about our God and about how we are responding to Him. Press into times of worship and seek His face not just His hand. Stay pursuing!
10. Church governments must come into perfect alignment with the Bible's instructions. Without it, the Church will continue to be challenged by the forces of darkness. Stay grounded!
11. Extraordinary expressions of the power of God will become more commonplace. Services where order and proper alignment have occurred will begin to see manifestations that will put the Gospel on the map in their community. Stay ready!
12. Today is not the day to be silent concerning the knowledge and testimony you have in your life and heart. Speak up and be ready for any opportunity that will come your way. Harvesting is persuading others to receive what we know. Stay bold!
13. The Middle East is being shaken to its core. Don't be surprised when many will begin to ask the questions that will open numerous doors for the presentation of the Gospel message. Learn the Last Days bible verses and trust the Holy Spirit to give you answers. Pay attention to what is occurring and prepare to be used by God's Spirit. Souls can be influenced through your Bible knowledge. Stay informed!
14. Ministers have been saying it for a couple of decades: Get out of debt and do it now! Don't buy what you cannot afford. Fasten your spiritual seat belts for a bumpy ride with the economy here in America. Trust in the Lord and obey His spiritual principles of finance. Continue to get out of debt and stay out of debt. Trust in the Lord for not only your daily provision but believe God for this entire year's supply NOW. Don't let financial stress press you into receiving the cares of this life. Stay in faith!
15. Invest wisely in people. Invest the most valuable commodity you have: your time and bible knowledge. Making disciples was not a suggestion; it was a command of our Lord. Others need to know what you know. Get busy and help others enjoy the quality of life you have. Stay busy!
16. Stay in a local house. Don't be deceived by the spirits of darkness that have confused so many believers into believing they don't need to be connected to spiritual leadership and have spiritual accountability. You also need a place to serve and to receive instructions from those who are called to lead you into the good things of God. Stay anchored!
