

# Prophetic Insights 2008

For many years, Rev. Judith K. Harrington has received and published Prophetic Insights for each New Year. Once again she has sought God for insights and they are listed below. Prayerfully use them as a means of targeting your life in the direction that will bring fulfillment. May the Holy Spirit enlighten you and strengthen you as you consider each insight.

We are truly a generation of destiny. It is clear that God is moving to ensure that His Word, both written and prophetic, will come to pass. God will move to position events and people today, so that our futures will play out exactly as He has foretold.

1. The American Church is in spiritual turbulence and needs a spiritual awakening. God is shaking His people for His ultimate purposes. Respond to His call to arise and stand firm on His Word and yield to the Holy Spirit. Let Him finish what He has begun in you!

2. The world is facing desperate times and the Church has been designed to be the most powerful and influential force on the face of this planet. The Church must yield to the perfect leadership of Jesus Christ and stay submitted to Him. It's time to get back to the business of active ministry to people in need.

*“Prodigals Will Return!”*

3. God's holy plumb line and justice are examining and exposing the integrity levels in ministries and in believers' lives. Expect to see the 'prideful' fall as hidden sins are exposed and promotions are granted to the humble.

4. Something powerful is on the horizon. The Lord has been equipping and preparing His true followers. As the greatest outpouring upon the world begins, we will experience many open doors and ministry opportunities. If you don't know how to minister to the every day person in need, then learn now!

5. *A fresh evangelistic anointing is about to rest upon serious believers. This year a fear of witnessing will be dispelled by the increasing desire for souls as revival fires burn. The unsaved are craving for a touch of the true power of Calvary!*

6. Much of the spiritual shaking that has been occurring has caused many believers to 'feel' as if they are in uncharted waters. One purpose of this shaking is to reveal old mindsets and spiritually unhealthy habits. Get rid of them now!

7. *A greater clarity of spiritual perception is coming as revival touches the eyes of our understanding and sharpens our discernment. Believers will operate in true spiritual comprehension as they face the struggles of the day.*

8. This will be the year of extremes. On one hand there will be extreme evil but on the other hand, an extreme amount of righteousness: disease and disasters, yet extreme miracles and provisions, serious bondages, yet powerful breakthroughs, etc.
